

## CEM wins 'Microsoft Best Implementation Partner' award

We are happy to share with you that "CEM Business Solutions "has been awarded the best implementation partner for 2011. Microsoft has selected 'CEM' as the best in implementation service organization, among 300 plus companies in the region.

*CEM Delivery Head Saji Varkey, receiving the award from Doug Kennedy, Vice President, Microsoft Corp, USA*

While giving the award, Microsoft commented, "*CEM has received this award because of their consistency in quality service. CEM Interacts with Microsoft regularly to continuously improve the service. CEM even sends every project sign off document to Microsoft*".

Interestingly, this is the 3rd year in a row CEM is receiving this prestigious award. We thank all our customers and dedicate this award to them. Without their guidance and participation, this consistency would not have been achieved.
