

US Payroll

Automatically calculate Overtime, Double-time and create calendars with shift schedules for easy organization. .

Run complex overtime payroll in minutes with the click of a button!

We understand that calculating overtime as per Fair Labor Standards Act for your employees can get tedious and time-consuming. That is why we have developed an Advanced Payroll Add-on that does all your payroll calculations with the click of a button and in minutes.

What is CEM's Advanced Payroll?

CEM Advanced Payroll is designed for project businesses like construction, AEC, and Consulting companies. The system tracks employees' timesheets by projects and activities. As well the system computes overtime, double-time for exempt and non-exempt employees. The Time, cost and billing data are updated into projects.

Value to You

- You can now integrate your payroll to attendance devices like biometrics to capture the timesheet of your employees.
- Automatically computes overtime, double-time for both exempt and non-exempt employees.
- It is fully integrated with D365, Talent, benefit providers, CEM Union and Certified Payroll.

Why should you choose CEM's Advanced Payroll?

- Automatically calculates weekly/daily overtime for exempt and non-exempt employees
- Spend less time shifting through timesheets by integrating payroll to the project
- 3rd party attendance and bio-metrics integration to payroll
- Employee can view his timesheet summary for the work week with hours worked
- Timesheet and payroll reconciliation reports
- Generate payroll for all the schedules simultaneously in the same entity
- Auto calculation of overtime and Double-time from standard scheduled hours
